Mangan Park Community Update

Cleanup Oversight

The Sacramento County Environmental Management Department (EMD) has been given delegation authority from the California Department of Toxic Substances Control (DTSC) to oversee lead clean-up efforts as a result of a release of lead from the City of Sacramento Mangan Park Rifle and Pistol Range located at 2140 34th Avenue.

Prior to the construction of the Mangan Park Rifle and Pistol Range in the early 1960s, the site and vicinity were historically used for agriculture, and was a part of what is now Sacramento Executive Airport (SEA).

To oversee the cleanup, EMD leadership, its Environmental Specialists with the support of DTSC and the Air Quality Management District, will guide the City of Sacramento by applying scientific methods to identify and correct environmental issues in order to protect public health and the environment.

Corrective Action Submissions

Mangan Neighborhood Sampling and Cleanup

On April 28, 2017, EMD received the Mangan Neighborhood Removal Action Work Plan by the City of Sacramento's consultant, Stantec. EMD and DTSC completed a review of the work plan, and on May 26, 2017, requested revisions from the City. The City asked for a technical meeting with EMD and DTSC to discuss revisions. EMD and DTSC continue to be in discussions with the City on the revisions and are working to establish a submission deadline for the revised Mangan Neighborhood Removal Action Work Plan.
