

## **FY2024 - FY2025 PROPOSED ENVIRONMENTAL HEALTH FEE SCHEDULE WORKSHOPS**

Environmental Health (EH) will be holding public workshops to provide information about the proposed fee schedule for EH permitting and services. It is anticipated that EH will introduce the proposed Fee Schedule for Sacramento County Board of Supervisors approval on January 9, 2024. If approved, the Fee Schedule will be effective on July 1, 2024.

EH continues to provide education, permitting, and inspection services to Sacramento County residents and businesses by fulfilling the department’s mission to protect public health and the environment. To achieve and maintain an appropriate level of protection, EH recognizes the benefit of collaborating with the business community. Please attend an upcoming workshop if your schedule allows. Your input is valuable to our community to ensure that we accomplish this goal.

EH understands this time is difficult for many businesses and residents of Sacramento County and weighs every option carefully before adjusting any of its fees.
